AI Use Declaration

Student information

- **Name:** Miss Ornicha Boonkratoke (นางสาวอรณิชา บุญกระโทก)
- **Nickname:** Ant / แอ๊นท์
- **Project:** Bilingual personal portfolio website
- **Date:** _____

Declaration

I used AI-assisted coding (AI Vibe Coding) as a development aid for this portfolio website. I remain responsible for checking the content, correcting errors, replacing examples with my own information, adding my own images and project links, and reviewing the final website before submission.

What AI helped with

AI was used to help plan the page structure, suggest a minimal dark-blue / black / muted-pink visual system, create reusable HTML/CSS/JavaScript structure, create example placeholder artwork, and prepare deployment and editing instructions.

Prompts used / prompts to document

Add the actual prompts used during development below. Example prompts:

1. “Create a bilingual portfolio website for Ornicha Boonkratoke with separate Home, Education, Portfolio, Activity, and Contact pages. Use a minimalist dark-blue, black, and muted-pink style.”
2. “Use separate page URLs, a consistent footer, responsive layout, editable image names profile and p1–p6, and editable Link1–Link6 project links.”
3. “Add a Web3Forms contact form using the supplied form structure and include a guide for replacing images, links, and PDFs.”
4. “Create a simple, readable AI-use declaration and deployment instructions for GitHub Pages, Netlify, and Vercel.”

Human verification and changes

I checked the page navigation, bilingual text, responsive structure, shared footer, contact fields, social links, and image placeholder behavior. I will replace all example portfolio/activity content and placeholder images with accurate personal information and real work before final submission.

Screenshots to attach

Insert screenshots of each final page below or append them as pages to the PDF:

- Thai Home
- Thai Education
- Thai Portfolio
- Thai Activity
- Thai Contact
- English Home
- English Education
- English Portfolio
- English Activity
- English Contact
